💼 Experience

(2024 –2025)

REACT FRONTEND DEVELOPER (SELF-TAUGHT)

- Built multiple frontend projects using React, including a full stack CURD App and portfolio website.
- Developed responsive UIs using Tailwind CSS and Bootstrap.
- Used Firebase for authentication and Firestore database to manage user data.
- Implemented routing, reusable components, and REST API integrations.
- Currently exploring Node.js, Express, and core backend development concepts.
